

Experience Portfolio

The purpose of applicants providing this portfolio is to verify the applicants experience and understanding of conveyancing practice including client care and legislative requirements, and to demonstrate that the applicant meets the required competencies to an equivalent standard required of the Diploma of Conveyancing.

The Diploma of Conveyancing is weighted heavily on analysing the title, plan and the instruments registered on the record of title in order for the conveyancer to provide clients with information about the property along with their rights and obligations as owner. Other learning outcomes of the Diploma of Conveyancing includes ensuring that purchasers are provided with pre-unconditional advice (e.g. compliance with the Building Code) along with ensuring that mortgagee requirements are met in terms of disclosure of the main obligations meaning and effect of the mortgage.

The NZ Society of Conveyancers Registration Authority requires;

- All applicants seeking to **Practice on Own Account** are to **complete Sections One and Section Two**.
- Applicants who are seeking to be registered as a conveyancer by way of **Equivalency Assessment** and intending to remain as an employee of a conveyancing firm or law firm are to complete **Section One** only.

Section One
